6 The left: rigged voting machines, mass-printed fake ballots, and interference in every part of the process that matters are not enough for us. We want to change the votes in-person, too, and really what Americans need to understand is that we feel it's best if elections are decided by us making up numbers on a phone call. If you could see our souls, they all look as sincere as Kamala Harris's facial expressions.

2 This pattern was in many states. Delete some from Trump, add some to Biden. The patterns are clear.  
▼ Fraud.
